

# Washington-Hoyt Green Schools presents **GOODBYN™**

a better lunchbox, reinvented for kids, parents, schools and our planet

## WHAT'S THE PROBLEM?

As Americans we have come to depend on the many convenience products that are available to us, and nowhere is this more evident than in the school lunch room. Most parents pack lunch items in single-use plastic bags, aluminum foil, or wax paper, or they purchase single-serving items that come in their own disposable package. Admittedly, these products are extremely convenient, but what is the environmental cost to a country that relies so heavily on them? Landfills are full and overflowing. Incinerators pump contaminants into the air. Communities are battling over who will accept the nation's trash. We all enjoy these conveniences, but few of us are willing to allow new landfills and incinerators to be built in our own backyards.

Much of the trash we generate comes from the packaging on the food we buy, and lunch foods are no exception. In fact, **it has been estimated that on average a school-age child using a disposable lunch generates 67 pounds of waste per school year. That equates to 18,760 pounds of lunch waste for just one average-size elementary school.**

## WHAT DOES A WASTE FREE LUNCH LOOK LIKE?

#### A Typical American Lunch (DISPOSABLE)

- sandwiches sealed in plastic bags
- fruits and vegetables in plastic bags
- prepackaged chips, cookies, fruit bars, granola bars, cheeses, and fruit leathers
- prepackaged yogurts, apple sauces, and puddings
- crackers, pretzels, chips, and other snack foods sealed in plastic bags
- disposable juice boxes, juice pouch's, soda cans, water bottles, and milk cartons
- plastic forks and spoons
- paper napkins
- reusable lunchboxes and disposable paper and plastic bags

#### A Waste-Free Lunch (REUSABLE)

- sandwiches and other main dishes, fresh fruit, fresh vegetables, and treats in a reusable lunch container \*
- cloth napkins
- stainless-steel forks and spoons
- reusable drink containers
- reusable lunchboxes

\*With this type of lunch, lunch food items can be bought in larger quantities. The packaging can be left at home for reuse or recycling. Waste-free lunches are not only a wise environmental choice, but they are less expensive as well.
